- 

## TECHNICAL SKILLS:

Programming Languages:

Javascripts, Python, C, Shell

Web development:

Html, CSS, Nextjs, Nodejs, Flask

Backend Framework:

Django, Django Rest Framework(DRF), Flask

Database Management :

SQL, MONGODB, POSTGRES, REDIS

Server Management:

NGINX, APACHE

Load Balancing:

HAProxy

## TECHNOLOGIES

- HTML
- Django,
- DRF
- Express js
- CSS
- JavaScript
- Typescript
- Nodejs
- Express Framework
- MongoDB
- Version Control with Git and GitHub.
- Test-Driven Development.

Version Control:

GIT,GITHUB

Problem Solving:

Algorithm, Data structures

Network administration

Network Security

System Administration.

#### **CERTIFICATIONS:**

- Certificate of Completion in Software Engineering from ALX(Backend specialization)
- Certificate of completion in Introduction to Computer science from ALX
- Career Essentials in System Administration by Microsoft and LinkedIn

#### **PERSONAL SKILLS:**

Fast learner with a proven ability to grasp new concepts and technologies.

Strong analytical and problem solving skills with a keen attention to detail.

Efficient team player, skilled in collaborative projects and agile development.

Excellent communication skills, both written and verbal facilitating clear technical documentation and effective interpersonal interactions

Adaptable and proactive, with a passion for continuous learning and self-improvement.

#### **PROJECTS**

##### **CURRENCY CONVERTER:**

An App built with Exchange rate API to get real time conversion rate.

**Technologies Used** –Javascript, Html, and CSS.

**Link:** <https://quiet-trifle-4e1e27.netlify.app/>

##### **A Django Ecommerce Website**

An Application where registered Users can shop and pay with PayPal, Can verify their email, reset password, change password etc.

**Technology used** – Django, Postgres, html, Css, Bootstrap etc.

**Link** <https://zorah-nine.vercel.app/>
